

## Installation guide for Mac

Note: To install VP Bank e-banking, you need administrator rights for your Mac.

1. Open the website [www.vpbank.com/e-banking](http://www.vpbank.com/e-banking). In the menu "Downloads & Tools", click on "e-banking version for Mac OS X 10.9 and higher". The download will start.
2. When the download is completed, double-click on the downloaded file.
3. The installation assistant will start.
4. Drag-and-drop the "vp-ebanking" file into the "Applications" folder.
5. Close the installation assistant.
6. VP Bank e-banking is now installed on your computer.
7. To activate VP Bank e-banking, go to "Finder" and click on the "Programs" folder and then on "vp-ebanking".
8. You can now login to VP Bank e-banking.

### Recommendation:

To make "VP Bank e-banking" even more convenient to use, you can drag the "vp e-banking" icon from the "Programs" folder and drop it into the "Dock".

## Deinstallation guide for Mac

Note: To install VP Bank e-banking, you need administrator rights for your Mac.

1. Open "Finder" and switch to the "Applications" folder.
2. Drag-and-drop the "vp-e-banking" program into the "Trash".
3. Click on the "Go to" menu.
4. By holding down the "Shift" key, the "Library" directory appears.  
Depending on your specific Mac model, you may need to press the "Alt" key rather than the "Shift" key.
5. Select the "Library" folder.
6. Open the "Application Support" folder.
7. Delete the "eLauncher" folder.
